Students Get Free Tools

Juniors and seniors in the Woonsocket Area Career and Technical Center's construction technology program were selected by Lowe's home-improvement company to receive \$600 worth of free construction tools that they'll use in their program. About 20 students went on a school bus trip on Friday to pick up the tools at the Lowe's store in Woonsocket. Last year, Lowe's gave them a \$10,000 community service grant that they used to renovate a ball field in Woonsocket.
